The Honda Valkyrie is a motorcycle that has been around for decades, and it has always been known for its power and performance. However, in recent years, the Valkyrie has also become a popular choice for customizers, who have created some truly amazing machines. One of the most famous custom Valkyries is the Emily Breclaw, which was built by renowned builder Ed Pink.

The Emily Breclaw is a stunning motorcycle that is the epitome of beauty, power, and performance. It features a host of custom modifications, including a stretched frame, a custom paint job, and a powerful engine. The Emily Breclaw is a true work of art, and it is sure to turn heads wherever it goes.

## Design

The Emily Breclaw is based on the 2004 Honda Valkyrie Interstate. However, Pink has made a number of modifications to the bike's frame, suspension, and bodywork. The most noticeable change is the stretched frame, which has been extended by 6 inches. This gives the bike a longer, more streamlined look. Pink has also added a custom swingarm, which is longer than the stock swingarm. This allows for a wider rear tire, which gives the bike a more aggressive stance.

The Emily Breclaw's bodywork is also heavily customized. Pink has replaced the stock bodywork with a custom set of bodywork that is made from carbon fiber. The new bodywork is lighter and more aerodynamic than the stock bodywork, and it gives the bike a more modern look. Pink has also added a custom paint job to the bike, which features a deep red basecoat with gold and black accents. The paint job is both beautiful and eye-catching, and it is sure to turn heads wherever it goes.

## **Features**

In addition to its stunning design, the Emily Breclaw also features a number of high-performance features. The bike is powered by a 1832cc V-twin engine that produces 105 horsepower and 123 pound-feet of torque. The engine is mated to a 5-speed transmission, and it drives the rear wheel through a shaft drive. The Emily Breclaw also features a number of upgrades to its suspension and brakes. The front suspension has been upgraded with a set of Öhlins forks, and the rear suspension has been upgraded with a set of Öhlins shocks. The brakes have been upgraded with a set of Brembo calipers, and the rotors have been upgraded to a larger size. These upgrades give the bike improved handling and braking performance.

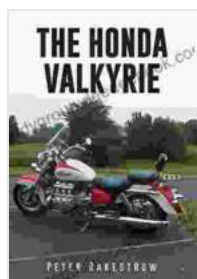

## The Story Behind the Emily Breclaw

The Emily Breclaw was built by Ed Pink for his wife, Emily. Pink is a renowned motorcycle builder, and he has built some of the most famous custom motorcycles in the world. The Emily Breclaw is one of Pink's most personal builds, and it is a testament to his skill as a builder. The bike was completed in 2005, and it has since been featured in numerous magazines and shows. The Emily Breclaw is a true work of art, and it is sure to continue to turn heads for many years to come.

The Honda Valkyrie Emily Breclaw is a custom motorcycle that is the epitome of beauty, power, and performance. It features a host of custom modifications, including a stretched frame, a custom paint job, and a powerful engine.
